THE PHOENIX COMIC CLUB

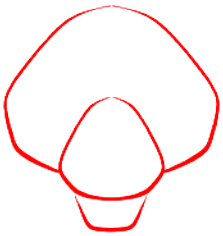

HOW TO DRAW A TIGERS HEAD

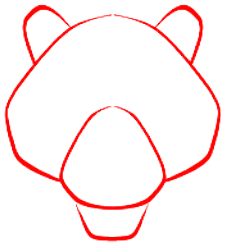

THE HEAD

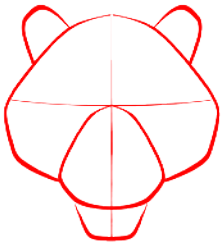

1. DRAW TWO *HEPTAGON* SHAPES, ONE JUST INSIDE THE OTHER.

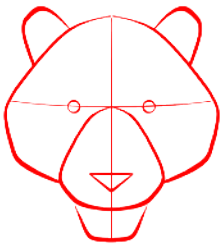

2. ADD THE *JAW* USING A SIMPLE SHAPE WITH ANGLED SIDES

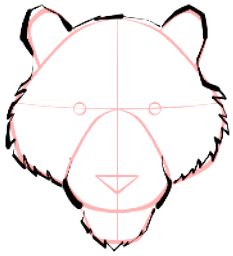

3. POSITION THE EARS, *DON'T MAKE THEM POINTY*

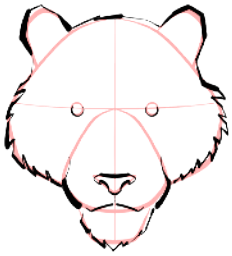

4. ADD *CENTRE LINES* FOR THE EYES AND NOSE

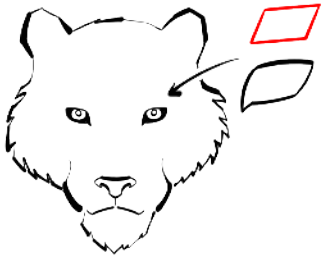

5. DRAW *TWO CIRCLES AND A TRIANGLE* FOR THE EYES AND NOSE

6. START YOUR FINAL DRAWING BY DRAWING A *FURRY OUTLINE*

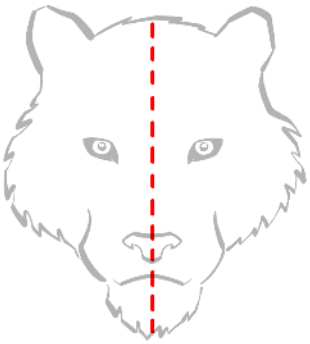

7. DRAW *HALF-EYES* AND FLESH OUT THE *NOSE AND MOUTH*

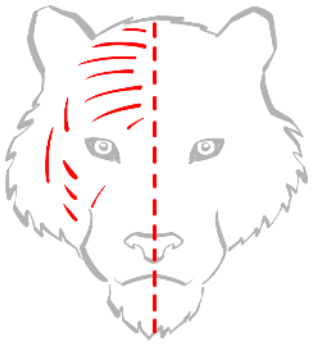

8. FRAME THE EYES WITH A CURVED *PARALLELOGRAM*

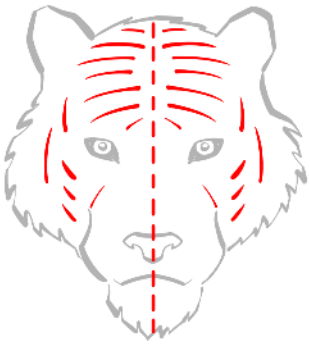

THE STRIPES

9. DRAW, OR IMAGINE, A *MIRROR LINE* DOWN THE CENTRE OF YOUR TIGER'S HEAD

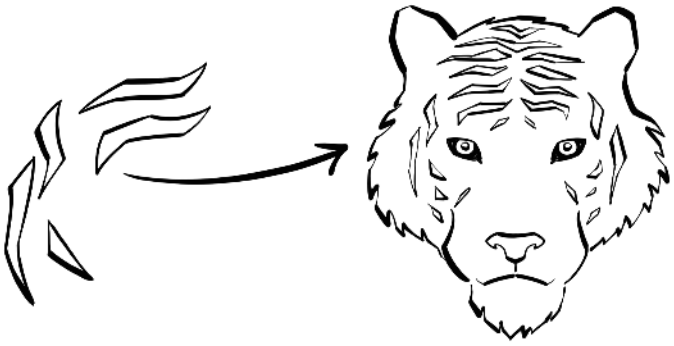

10. DRAW SOME *SIMPLE CURVES* WHERE YOUR STRIPES ARE GOING TO GO

11. AND THEN *MIRROR THEM* ON THE OTHER SIDE OF THE HEAD

12. NOW DRAW OVER YOUR CURVED LINES WITH *ANGLED SHAPES*. REMEMBER, ALTHOUGH THE STRIPES ARE POSITIONED *SYMMETRICALLY* THAT DOESN'T MEAN THEY SHOULD ALL LOOK IDENTICAL. *RANDOMISE* YOUR STRIPES.

13. ADD IN SOME FINAL DETAILS LIKE THE ***EARS AND WHISKERS***

14. DRAW IN THE ***NECK*** WITH FURRY LINES AND SOME GUIDES FOR THE ***STRIPES***

15. JUST LIKE BEFORE, ***EMBELLISH*** YOUR CURVED LINES WITH ***ANGLED STROKES***

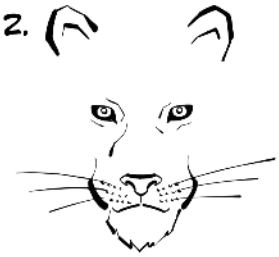

PRO TIP - CREATING A LION

TO CREATE A ***LION*** COMPLETE STEPS 1 - 13 (MISSING OUT THE STRIPES) AND THEN ***ERASE*** THE OUTER EDGE OF THE HEAD. ADD A ***MANE*** USING FURRY LINES, KEEPING THINGS RANDOM AND NOT TOTALLY SYMMETRICAL.
