THE PHOENIX COMIC CLUB

HOW TO DRAW A SPACE STATION

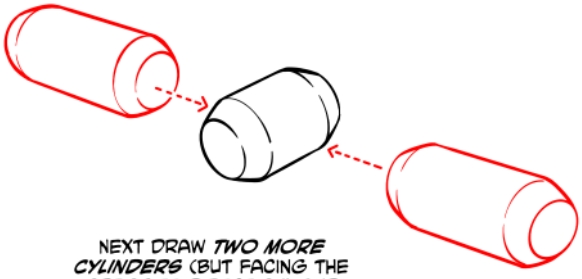

BUILDING BLOCKS - MAIN STRUCTURE

1.

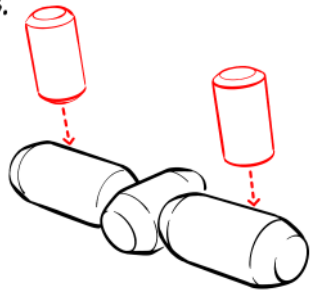

DRAW A *CYLINDER* AND ERASE THE LEFT EDGE. THEN DRAW A *SMALLER OVAL* AND A *CURVE* AT EITHER END. AND FINALLY, *JOIN EVERYTHING UP.*

2.

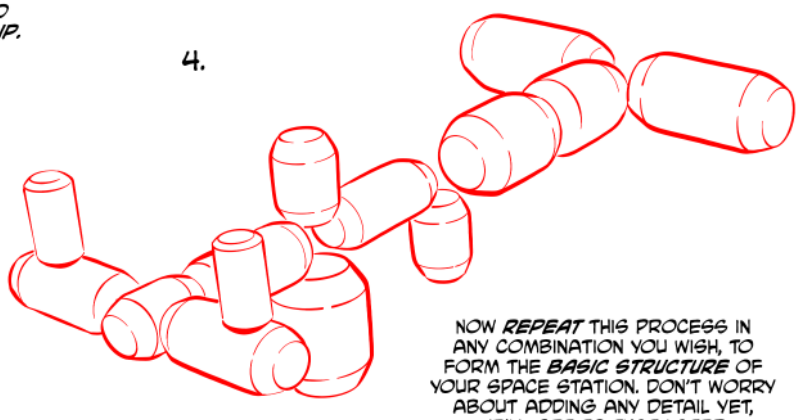

NEXT DRAW *TWO MORE CYLINDERS* (BUT FACING THE OPPOSITE DIRECTION) AND *ATTACH THEM* TO EITHER SIDE OF YOUR ORIGINAL SHAPE.

3.

ADD *TWO MORE CYLINDERS* (THIS TIME POINTING UPWARDS) ON TOP OF YOUR EMERGING STRUCTURE.

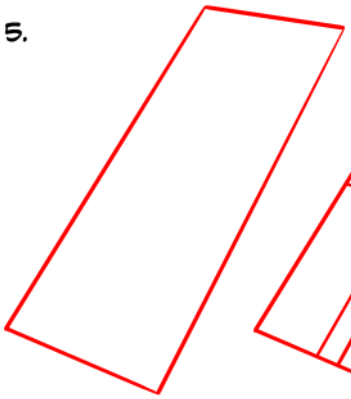

4.

NOW *REPEAT* THIS PROCESS IN ANY COMBINATION YOU WISH, TO FORM THE *BASIC STRUCTURE* OF YOUR SPACE STATION. DON'T WORRY ABOUT ADDING ANY DETAIL YET, WE'LL GET TO THAT LATER.

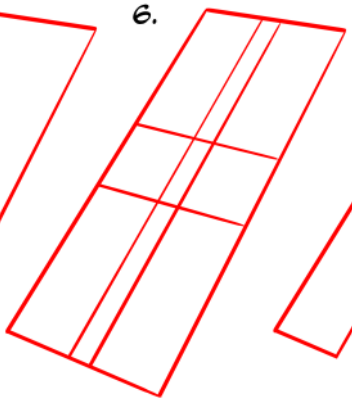

BUILDING BLOCKS – SOLAR PANELS

5.

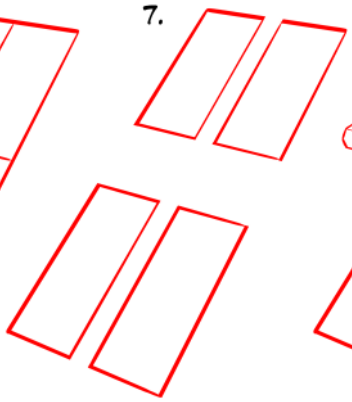

DRAW A *SLANTED RECTANGLE.*

6.

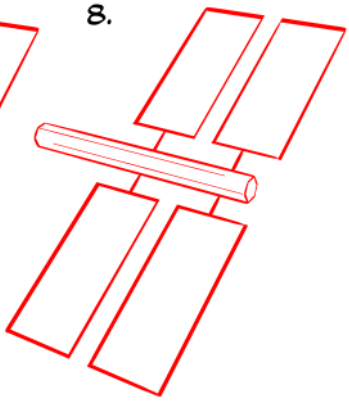

DIVIDE YOUR RECTANGLE UP INTO SECTIONS.

7.

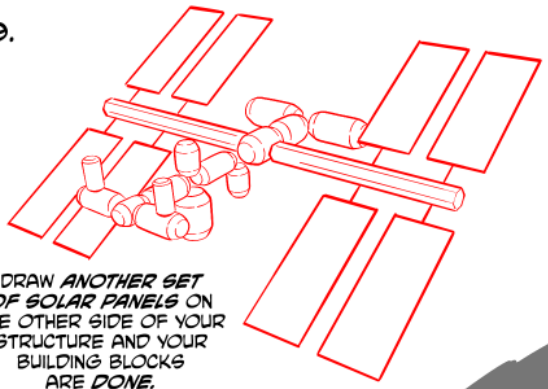

ERASE ANY UNWANTED LINES.

8.

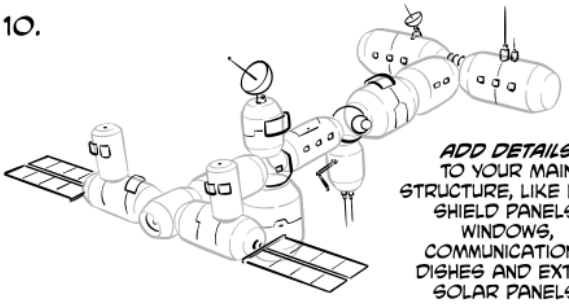

DRAW A *HEXAGONAL TUBE* BETWEEN THE TOP AND BOTTOM PANELS.

9.

DRAW *ANOTHER SET OF SOLAR PANELS* ON THE OTHER SIDE OF YOUR STRUCTURE AND YOUR BUILDING BLOCKS ARE *DONE.*

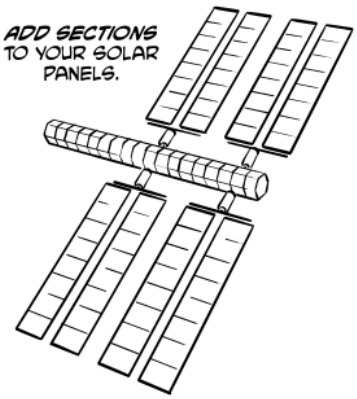

10.

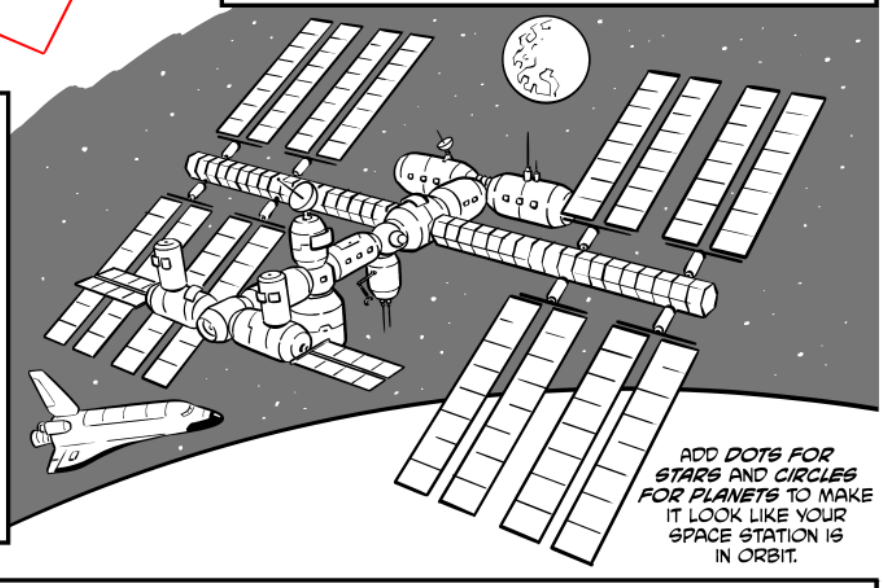

ADD DETAILS TO YOUR MAIN STRUCTURE, LIKE HEAT SHIELD PANELS, WINDOWS, COMMUNICATIONS DISHES AND EXTRA SOLAR PANELS.

11.

ADD SECTIONS TO YOUR SOLAR PANELS.

ADD *DOTS FOR STARS* AND *CIRCLES FOR PLANETS* TO MAKE IT LOOK LIKE YOUR SPACE STATION IS IN ORBIT.

12. ADD A DOCKING SPACE SHUTTLE

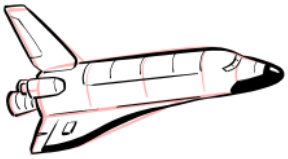

DRAW A *CYLINDER* THAT *NARROWS* AT THE END.

ADD A *POINTY NOSE* AND DIVIDING LINES.

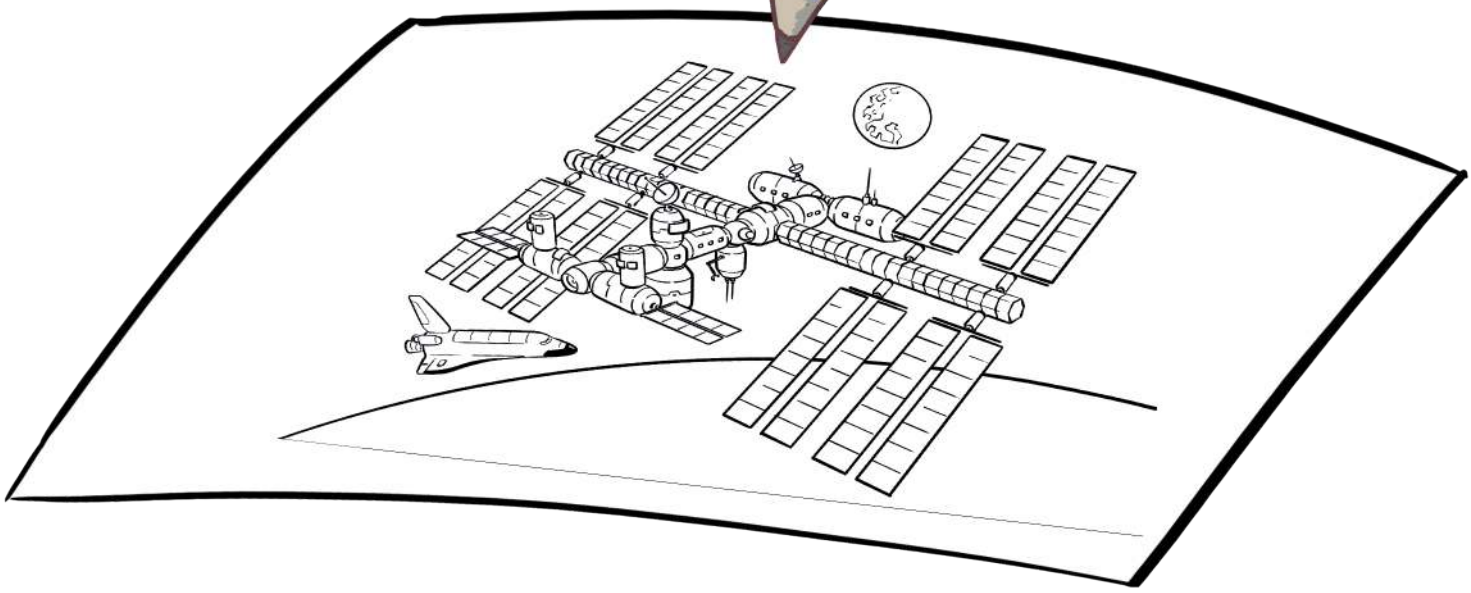

ADD *WINGS AND THRUSTERS.*

USE YOUR GUIDES TO CREATE YOUR *FINAL SHUTTLE.*
